IT WENT FOR A STATION-HOUSE

One of the Ways of Keeping New York Behind the Age.

CENSURED BY A GRAND JURY

In a Presentment the Need of a Police Signal System Was Set Forth.

back as the month of July, 1891 the Grand Jury of this county felt called upon to take action upon the deplorable dition of the city in regard to a ed into the condition of the streets and the ambulance service. The preent which they handed up attracted attention everywhere.

a scathing rebuke to city ofcials for wilful neglect of duties. The ance service was said to be of the very worst kind, and not half adequate for the needs of a great city. . It tock place every month, and of the delay in taking victims to hospitals for treatment The delay in nearly every fact that there was no police signal system, and no patrol wagons. Here is n extract from that presentment:

'In view of the needs in this great which it is far below smaller cities, we deem it our duty to urge pon the Board of Police Commissioners all possible speed in selecting the most system by which the entire patrol force of that Department may be at all times in complete and rapid comnunication with their station-houses th for police purposes and the relief of the ambulance service.

en this selection shall have beer made, after exhaustive competitive tests by the Police Department, we urge upon the Board of Estimate and Apportionment prompt action in making the appropriation necessary to bring into extence this greatly needed addition to the useful functions of our city."

That presentment aroused the Police

Board to action, and plans of all kinds were suggested to properly equip the city. No longer would the officials be rebuked. They would do something, and

It must not be forgotten that the Po-It must not be forgotten that the Po-lice Commissioners had then been tin-kering with the same subject for four years. However, they did get down to business, and in their departmental ex-tinuates for the year they asked for a sum of money to initiate the reform. The Board of Estimate and Apportion-ment of that time took kindly to the aug-gestion, and as a result a sum of \$12,500 was allowed the Police Board to start with. That was simply the getting in of the wedge, as it were, it being dis-tinctly understood that all the money necessary would be appropriated at the understood that all the money ary would be appropriated at the

Great things were looked for from the Police Commissioners, and great things were promised while the Grand Jury's presentment was still fresh in the public mind. But when the memory of that document died away, as it did, the promises died with it. Weeks, months and years have rolled away since then. But where are the patrol wagons?

Police Commissioner McClave, when he explained his side of the case and denied that there had been any juggling, said that there had been any juggling, said was seried as the court, created somewhat of a sensation of the court of

But where are the patrol wagons?

Police Commissioner McClave, when he explained his side of the case and denied that there had been any juggling, said that he was heartly in faxor of the scheme. He wanted to see New York City away ahead of every other municipality, not years behind little country villages, as it is. He did not mention to the reporter that any money had ever been appropriated for police wagons. Therefore, he never said that not only had the money not been used for that hispone, but that instead it had been diverted to another purpose altogether. This is not a statement made on hearay. It is a fact. It is on record. It has been published in the City Record, and the request from the Police Commissioners to an divert it to another purpose is still on file in the Police Commissioners to an divert it is another purpose is at ill on file in the Police Commissioners to an of ivert it is an other purpose is at ill on file in the Police Commissioners of fine. Here it is:

The Henoralle, the Board of Estimate.

Gentlemen: At a meeting of the Board of Police Commissioners of fice. Here it is:

Gov.

That, however, is not all. In view of Commissioner McClave's remarks, the unisilitated might be led to imagine that owing to Mr. Myers the reform both in police signalling and patrol wagon service had been put back a century. He told the reporter that "absolutely nothing" could be accomplished until next rear, when the Board of Estimate would consider the estimates for the year 1895, or unless the Legislature could be involved to take action.

discret to take action.

Now, although \$12,000, appropriated for the year 1801 was diverted to another purpose by the Police Commissioners, the fact remains that a semilar sum was appropriated for 1803, and so far as can be ascertained it has not yet been expended. Here is a further fact:

There is at present in the provisional self-under the

sum can be raised to \$1,000,600 if necessary before the final estimates are passed.

Mayor Gilroy, in public meeting of the Board of Estimate, has declared himself in favor of the improvement. He has said that it is one of the greatest and most needed reforms ever undertaken, that no money, in fact, would be wasted if spent upon it.

Comptroller Myers is in favor of it, and all the members of the Board of Estimate and Apportionment hold similar views.

The way is open and the road is clear.

Even Corporation Counsel Clark's peculiar opinions do not stand in the way of a patrol wagon service.

As to the signal system, which has been juggled with for seven years, there is a way at the present time even of taking up that. All that is needed is to adopt a plan and the money will be obtainable.

M'CONNELL REMANDED

Court Chambers to-day, on a writ of habeas corpus.

McConnell is charged with obtaining credit for \$25,000 worth of carpets upon the representation that he was to marry a rich woman, and that he devoted the proceeds from the sale of the carpets to his own use.

Assistant District-Attorney Martine asked that McConnell be remanded. The prisoner's attorney argued for the release of the prisoner at once.

He said it was against the prisoner's prisoner's attorney argued for the release of the prisoner at once.

He said it was against the prisoner's
legal rights to be kept in prison here
swaiting the arrival of alleged papers
from the West that might never come.
Justice Ingraham said he thought it
was but right to hold the prisoner a
reasonable time on telegraphic notice
from officials that the necessary legal
papers would be sent. He therefore remanded McConnell mill Tuesday, when
the requisition papers are expected.

BURGLARS IN A POST-OFFICE.
